

Sean Cordes

Solutions Director

LDM Global

Guernsey

scordes@ldmglobal.com

Sean Cordes is the solutions director of LDM Global's Channel Islands region. Sean's expertise is in data handling and analysis in the fields of digital forensics, cybersecurity and eDiscovery. He has helped companies investigate and respond to a variety of cybersecurity breaches, including cyber intrusions and data thefts in medical offices and insider threats from employees attempting to destroy evidence of criminal activity. Additionally, Sean has managed intrusion detection systems (IDS) and internal network access control software for large companies.

Sean has been responsible for the preservation and acquisition of hundreds of sources of ESI all over the world. Working in the United States, British Virgin Islands, and Channel Islands has provided Sean with experience working on a variety of cases, including international intellectual property and corporate espionage disputes, large bankruptcy cases and cross border fraud investigations.

Sean was drawn to the forensics and cybersecurity field after working at a private security company and decided to focus on it as a career. Sean is a Certified Forensic Computer Examiner.
